Six Flags Fiesta Texas Waterpark

2006

Three unique water slides and all-new kids waterplay area highlight waterpark's extreme makeover

San Antonio—The waterpark at **Six Flags Fiesta Texas** becomes even **bigger, better and wetter** for the 2006 season as it will undergo unprecedented growth with a spectacular H2makeOver, including thrilling new major additions!

Visually stunning changes will occur in virtually every corner of the waterpark, with two new intertwining tube slides; a new six-lane slide racer; a colorful, splashy new kid's area; and an attractive and more convenient entry plaza.

Highlights of the popular waterpark's extreme makeover include **Whirlpool**, where speed and centrifugal force will keep you glued to the outside wall of a 40-foot diameter bowl! You'll experience multiple thrilling revolutions and a 50-foot drop before reaching the refreshing splashdown channel below!

The **Whirlpool** adventure begins once you and a friend board a customized two-person tube. You'll enter a suspense-filled 54-inch in diameter, enclosed tunnel slide, quickly accelerating into a long, arching right hand turn leading to further surprises. During the course of your journey, you'll experience multiple revolutions inside a 40-foot diameter giant bowl, before slowly decelerating through the corkscrew slide finale. A custom enclosure over the bowl will allow for special lighting and sound effects throughout!

Located adjacent to and at times intertwining with **Whirlpool** will be **Big Bender**, a second unique tube slide, but providing an entirely different experience! On **Big Bender**, you and a friend will plunge down dips and curves, blast through tunnels and thrill to spectacular twists and turns alternating in unexpected darkness and daylight! With an impressive flume length of over 400-feet and a heart-racing 50-foot drop, **Big Bender** may accommodate up to 720 riders per hour.

Both Whirlpool, and Big Bender will be visually spectacular waterpark landmarks located directly inside and to the left of the beautiful new waterpark entry plaza.

Located in an entirely different area at the waterpark will be **Hill Country Racer**, a six-lane speed slide attraction. You and up to five friends may race head first on specially designed mats up peaks and down valleys in a race to the finish!

Located adjacent to the incredibly popular Texas-shaped wave pool, Lone Star Lagoon, this 46-foot-tall slide structure will provide a spectacular waterpark view, for all who attempt the challenge!

With somewhat different appeal, the little tykes have certainly not been forgotten with the unveiling of a very special area designed just for them, Splashwater Springs! Located in the upper tier of the waterpark, this area boasts excitement on an appropriately smaller scale, but with all the enchantment and awe a younger audience appreciates! Elements include a Pirate Ship, Beached Boat Slide, Water-squirting Palm Trees and Friendly Whales, Frogs and Turtles. All these fun attractions are nestled within and around two separate shallow lagoons, framed by lush landscaping and convenient rest and food facilities.

To add to the increased appeal of the waterpark, an entirely re-designed entry plaza featuring a landmark water tower and new merchandise facility will also be included. The broader entry will allow easier access to the new attractions plus expanded food and merchandise locations. At the Beach Bum Surf Co., you'll be able to pick up any items you may have forgotten, as well as customized waterpark apparel.

In addition to Fiesta Texas' roster of astonishing thrill rides, don't forget all our award-winning shows! Our entire show package has been awarded a Golden Ticket Award for "best theme park shows in the country" an amazing seventh consecutive year! Marking a return by popular demand in 2006 will be Xcelleration, our extreme show featuring professionals from the sports of BMX Biking, skateboarding, bungee artists and acrobatics! Xcelleration was also awarded an industry accolade, the Big "E" for "Best Sports Show of 2005."
